

Sıraç Göktuğ Şimşek

Game Developer & UI Engineer · Istanbul, Turkey

sgoktug34@gmail.com github.com/unitybtw linkedin.com/in/sıraç-göktuğ-şimşek-a5a7a735a

EDUCATION

Istanbul Kultur University (İKÜ)

2025 – Present

B.Sc. in Digital Game Design (1st Year Completed with Honors)

Coursework in Unity gameplay programming, 3D modeling pipelines, game physics, and real-time shader development.

High School Graduation

2020 – 2024

Focus on Science, Mathematics and Computer Science Foundations

TECHNICAL SKILLS

Game Engines & Tools: Unity 3D/2D, C#, Blender, Shader Graph, URP/HDRP

Web & Interactive: React, JavaScript, Vite, WebGL, Canvas API, WebAudio

Native & Systems: Swift, SwiftUI, AppKit, macOS Menubar Tools

DevOps & Workflow: Git, GitHub, REST APIs, Performance Optimization

FEATURED PROJECTS & ACHIEVEMENTS

Legend of the Three Masks

Unity · C# · Blender

Physics-driven action-adventure game featuring responsive combat mechanics, custom particle shaders, and low-poly 3D environments built from scratch in Blender.

Zero-Ads Arcade Web Engine & 75+ Game Ports

React · WebGL · Canvas

Engineered a responsive, high-performance browser arcade suite featuring 75+ playable games, global Firebase real-time leaderboards, local save persistence, and 120 FPS buttery rendering.

Signal — Native macOS Audio Feedback Utility

Swift · SwiftUI

Lightweight menu bar utility providing haptic and audio feedback for keyboard interactions with sub-millisecond latency.

CERTIFICATIONS & LANGUAGES

- Advanced Unity Game Development & C# Architecture
- Apple Developer Native macOS & iOS App Development
- Languages: Turkish (Native), English (Professional Working Proficiency)
